

*Where People Are Worth More Than Money*

Fellow Meadowland Members

As you are all well aware, Wisconsin COVID-19 cases are at an alarming rate putting our state at one of the top in the nation.

While we, as always, view our members as top priority as a financial, we also care about our members and staff's health and well-being. At MCU we have not have any known cases of COVID-19 coming from our credit union or staff. We pride ourselves in maintaining safety for our members and staff.

So, starting Monday October 12, 2020 we will temporarily close our lobby. We will be staffed to help you. You may make an appointment for our loan department for a loan or member service for any help you need for a new or existing account.

You may access us the following ways.

- You may call us during normal hours at 920.467.8105
- Drive thru will be open normal hours. You may use lane 1 to exchange light amount of coin if needed.
- You can access your account 24/7 as always using home or mobile banking
- MCU in August upgraded our bill payment system allowing more services like person to person (p2p) payment. Call us if you have any questions on our new bill pay services.
- Sign up for estatements to receive your secured statement faster than mail, and it will keep your statement for 24 months.

Myself, our staff, and Board of Directors are here to help our community and members. If you have any financial questions or concerns please call us, we would love to help. We will continuously monitor the number of cases and will open the lobby when we feel our members and staff can be safe.

Please check our website at [meadowlandcu.org](http://meadowlandcu.org), and our social media pages of Facebook and LinkedIn for any changes in the future.

As always MCU truly believes that "People Are Worth More Than Money". Thank you for your patience during this time.

On behalf of the Staff and Board of Directors, we hope you and your family stay safe and healthy during this time.

*David Horner*
