SECURITY

Keeping you safe online ...

Why change your User Login for Home Banking?

Security reasons of course! So, we are encouraging all of our members to change their home banking login to something other than your account number. We want to help you protect your accounts.

Changing your user login is a simple way to keep your member number safe. This change will make it more difficult for someone to access your account. Changing your login ID is easy to do once you signed into home banking.

- Click on the “Services” tab at the top of the page.
- Click on “Change Login ID”
- Enter your current Login ID
- Create a new ID (there are no special requirements as to the length, number of characters or type of characters needed for your new ID)
- Reenter the new ID
- Hit Save
- You have changed your Login ID

To ensure uninterrupted service with your MASTER CARD Debit card, please let us know your travel plans. If you are going for a quick weekend getaway or for a longer time, please notify us of your destination.

Please verify your contact information.

Many people have eliminated home telephones or land lines as a cost-saving measure and almost exclusively use personal or work cellphones. **MCU wants to make sure we have the most up-to-date contact information for you, including home, phone, and email addresses.**

When you contact us you may be asked to verify the personal contact information we currently have on file and provide any corrections or missing information for your accounts.

To review your personal information stop by MCU and our staff will be happy to review it with you.
