Have you heard about...

Tech Support Scams

Here's how they work:

You get a pop-up or other urgent message from someone saying your computer is infected. It might seem like the message comes from a well-known company like Microsoft or Apple, or maybe your internet service provider. It tells you there are viruses or other malware on your computer. It says you have to call a number or risk losing your personal data.

But is this threat - or their problem - real? Judging by reports to the Federal Trade Commission, no. These are scammers who want to sell you useless services, steal your credit card number, or get access to your computer to install malware, which could then let them see everything on your computer.

Here's what you can do:

1. **Stop.** Don't call a phone number or click a link. Don't send money, give your credit card number, or give control of your computer to anyone who contacts you.
2. **Pass this information on to a friend.** You might know these pop-ups are fake, but chances are you know someone who doesn't.

VACATION CLUB FUNDS

Your Vacation Club Funds will be transferred to your primary share account on Monday May 1st, 2023. The projected interest rate for the 2023-2024 year is 0.20% APY. Come in to open your vacation club account today.

What is a Vacation Club? It is an account that helps you save for the dream vacation that you have been working so hard for! You can have the money deducted directly from your paycheck and deposited right into your account, or make individual deposits! On May 1st, the funds you have saved throughout the year will be automatically transferred into your savings account for your convenience.
